What’s up with hard hat safety!

OSHA requires the use of ANSI-compliant head protection to help prevent serious injuries.

ANSI Z89.1-2009

Industrial head protective helmets meeting the requirements of the 2009 standard are classified as:

Type I: Protects against hits to the top of the head.

Type II: Protects against hits to the top and lateral sides to the head.

The three classes indicate the helmets electrical insulation rating.

Class E (electrical) tested to withstand 20,000 volts.

Class G (general) tested to withstand 2200 volts.

Class C (conductive) provide no electrical protection.

HARD HAT SUSPENSIONS

Pin Lock Suspension
Adjust by inserting pin into corresponding hole

Ratchet Suspension
Adjust by turning a knob in the rear of the hard hat

Swingstrap Suspension
Adjust by squeezing separating suspension to best fit

Susensions are available in 4, 6 and 8 points. The more points, the better the distribution of impact.
E2 Thermoplastic Hard Hats
• 8 pt. ratchet
• Smooth crown design
• Meets ANSI Z89.1-2009 Type 1, Class E

Roughneck P2 Hard Hat
• 8 pt. ratchet
• Meets ANSI Z89.1-2009 CSA Z94.1-2005 Type 1, Class G

E2 Cap Style Hard Hat
• Ratchet headband
• 8 pt. suspension
• Quick lok blocks
• Meets ANSI Z89.1-2009 Type 1, Class E

E2 Flag Hard Hat
• Swingstrap
• 360° padded sweatband
• Meets ANSI Z89.1-2009 Type 1, Class E

FMX Hard Hats
• Colorful designs that won’t chip, fade nor peel
• Smooth thermoplastic crown deflects impacting objects
• 8 pt. suspension disperses impact energy
• Meets ANSI Z89.1-2009 Type 1, Class E

E1 Full Brim Thermoplastic Hard Hats
• 8 pt. ratchet
• Meets ANSI Z89.1-2009 Type 1, Class E

Spirit of America Hard Hats
• Overlay design that’s heat and scratch resistant
• Meets ANSI Z89.1-2009 Type 1, Class E

Thermo Plastic Welding Helmets
• Light weight and full size
• Lifetime warranty on helmet and headgear

PERSONAL PROTECTION—HEAD

**Skull Guard Hard Hats**
- Consists of a polyethylene shell and suspension system

**Tan Fiber Cap**

**White Fiber Full Brim**

**Peak Hard Hats**
- 4 pt. pin lock nylon suspension
- A29: Meets ANSI Z89.1-2009 Type 1, Class E
- A79: Meets ANSI Z89.1-2009 Type 1, Class, CSA Z94.1-2005 Type 1, Class E

**NORA79—YELLOW**
- NORA79—BLUE
- NORA79—WHITE
- NORA79—RED
- NORA2944—LIME GREEN

**Vented Ridgeline Premium Hard Hats**
- 4 pt. position harness points
- Rear padded suspension, vented pressure pad
- Swing hinge points

**PyRHP44110V—WHITE**
- PyRHP44112V—GRAY
- PyRHP44141V—HI-VIS ORANGE
- PyRHP44131V—HI-VIS GREEN

**Hi-Vis Cap Cover**

**Sun Shroud**
- Size 12” x 14”

**Neck Guards**
- Elastic bands to fit over most hard hats

**Compliance Kit**
- Includes: Hard hat, ear plugs, leather gloves & safety glasses
- Universal size
- Kit designed for tradespeople

**NORBASICKITA29WHT**
**Terry Sweatband for Hard Hats**
- Fits most hard hat suspension systems
- Machine washable

**Hard Hat Sweat Band**
- Air cushioned
- Will not slip

**Hard Hat Sunshield**
- Use with full brim hard hat
- Blocks 99.9% of UV

**High Performance Face Shield Headgear**
- Provides 40% more protective area than standard faceshields
- Meets ANSI Z87.1, CSA Z94.3 standards

**High Performance Face Shield Hard Hat Adapter**
- Hard hat and full brim
- Dielectric bracket

**Protecto-Shield**
- Tough thermoplastic for superior heat protection

**Face Shield Replacement**
- Wide vision
- Clear, wide View 8” x 16 1/2”
- Meets ANSI Z87.1, CSA Z94.3

**Mesh Face Shield**
- Epoxy coated steel for glare

**M3 Cap Mounted Earmuff**
- NRR 24
- Slots easily into most hard hats
- Can be locked into standby position for storage

### LIGHT TRANSMISSION GRAPHS

**Anti-Reflective**  
Light silver mirror coating provides just enough reflection of light for indoor and outdoor conditions.  

![Graph](image)

65% of the total amount of light passes through this **ANTI-REFLECTIVE** lens.

**Yellow**  
Enhances available light for low light conditions or after dusk driving.  

![Graph](image)

80% of the total amount of light passes through this **YELLOW** lens.

**Copper**  
Filters out Blue Light or haze which can cause eye fatigue, tired, strained, or sore eyes. Specifically engineered as a high contrast driving lens to give you greater depth perception.  

![Graph](image)

8% of the total amount of light passes through this **COPPER Driving lens**.

**Smoke**  
The perfect all-around tint for standard shading in normal light conditions.  

![Graph](image)

16% of the total amount of light passes through this **SMOKE** lens.

**Silver Mirror**  
Similar to Smoke lens properties, but has the added Silver Mirror lens coating which reflects more light, making it ideal for bright light conditions.  

![Graph](image)

13% of the total amount of light passes through this **SILVER MIRROR** lens.

**Aqua Precision Red**  
The Aqua-based color of this lens maximizes clarity and contrast. The technology in this lens was originally designed by NASA as a reflective coating for satellite portholes.  

![Graph](image)

13% of the total amount of light passes through this **AQUA PRECISION RED** lens.

**Polarized Copper**  
Filters out Blue Light or haze which can cause eye fatigue, tired, strained, or sore eyes. Specifically engineered as a high contrast driving lens to give you greater depth perception, and also offers the added feature of a polarized lens as described on page 7 under “Light Management.”  

![Graph](image)

8% of the total amount of light passes through this **POLARIZED COPPER Driving lens**.

**Polarized Aqua Precision Blue**  
The Aqua-based color of this lens maximizes clarity and contrast. The technology in this lens was designed by NASA as a reflective coating for satellite portholes, and also offers the added feature of a polarized lens as described on page 7 under “Light Management.”  

![Graph](image)

10% of the total amount of light passes through this **POLARIZED AQUA PRECISION BLUE** lens.

---

**Exposure to high levels of light without proper sunglass lens filtration may cause**

- Cornea Damage
- UVB (290-315 nm) 
- LVC (315-380 nm)
- Lens Damage
- UVA (315-380 nm)
- UVB (290-315 nm)
- Photokeratitis (Welders Flash)

PERSONAL PROTECTION—HEARING

Hear today gone tomorrow - use your hearing protection

Job Site Sound Levels (dBA)
- Chain saw (110)
- Grader, scraper (107)
- Jackhammer (102)
- Bulldozer (100)
- Concrete saw, electric grinder (98)
- Nail gun (97)
- Forklift (93)
- Belt sander (90)
- Backhoe (85)
- Framing saw (82)

OSHA recommends that employees not be exposed to noise levels greater than 85 dBA

Everyday Sound Levels (dBA)
- Jet engine at takeoff, gunshot (140)
- Snowmobile (120)
- Chain saw, accelerating motorcycle at 1 meter (110)
- Woodshop (100)
- Portable music player (up to 100)
- OSHA permissible exposure limit (90)
- Power lawn mower at operator’s ear (90)
- Schoolchildren in noisy cafeteria (80)
- Normal conversation (60)
- Whispered voice (30)
- Threshold of unimpaired hearing (0)

OSHA recommends that employees not be exposed to noise levels greater than 85 dBA

USE THE 2-3 FOOT RULE

When a sound level meter is not available, you should use the 2 to 3 foot rule: Stand about an arm’s length away from your coworker: If you have to raise your voice to be heard 2-3 feet away, you should assume that the sound level is at or above 85 dBA.

Z2 Economy Earmuff
- NRR 25, over the head
- Multi-position headband
- Molded grips for easy fitting

MX-5 Earmuff
- NRR 27, overmolded & cushion-ribbed headband is durable and comfortable
- Larger ear cushions, fits almost all ears comfortably

MX-6 Earmuff
- NRR 30, exclusive waffled cup foam for superior protection
- Lightweight wire frame allows easy cup adjustment yet holds its position
**Glide® Foam Tip Earplugs**
- Unique multi-curved stem rotates for a custom fit
- Highest NRR of any No-Roll plug in the market
- NRR 30 dB

**Glide® Triple Flange Earplugs**
- Reusable & washable
- Unique multi-curved stem rotates for a custom fit
- NRR 30 dB

**SparkPlugs® PlugStation®**
- Give easy access to earplugs anywhere
- Hygienic from dispenser to hand
- 500 pairs of NRR 33 earplugs

**Flip to Listen® Earplugs**
- Dual mode: NRR 24 closed cap / NRR 4 open cap
- Reusable & washable
- Includes: cloth cord & case

**Meteors® Foam Earplugs**
- Follows the shape of ear canal
- Less pressure for all-day wear
- NRR 33 dB

**Corded SparkPlugs® PlugStation®**
- Only corded earplug dispenser in the market
- Holds 150 pairs of corded NRR 33 earplugs

**Mellows® Foam Earplugs**
- Tapered for snug fit
- Extra-soft foam for all day comfort
- NRR 30 dB

**SparkPlugs® Foam Earplugs**
- Tapered design for snug fit
- Non-irritating smooth surface
- NRR 33 dB

**Meteors PlugStation®**
- Helps increase compliance
- Hygienic from dispenser to hand
- Holds 500 pairs of NRR 33 earplugs

**Rockets® Earplugs**
- Easy grip handle
- Reusable & washable
- Soft, flexible flanges for superior seal
- NRR 27 dB

More Surface, More Comfort
Easier breathing and cool comfort are what you get when you wear an AirWave respirator. The larger surface area of the patent-pending wave design means more air flows in and out of the mask all without a valve! Easy breathing... by design.

More Flex, More Durability
The unique FlexFit design moves with your mouth for comfort all day long. More comfort means AirWave is a mask that your workers will want to wear, and that means more compliance. Plus the Dura-Mesh shell prevents collapsing from heat and humidity so your mask last longer.

More Air, More Wear
When you can breath easier and you’re more comfortable, you’ll want to keep wearing AirWave! Longer wear means less masks, less masks means more savings. Compliance and cost savings just got easier.

More Air, More Wear

Outer Dura-Mesh® keeps respirator clean looking.

Inner Dura-Mesh® prevents collapsing from heat and humidity.

Filter is protected on both sides by Dura-Mesh®

Softspin® lining is comfortable against the face.
**PERSONAL PROTECTION – RESPIRATORY**

**N95 High Visibility Particulate Mask**
- Dura-Mesh shell upholds in heat and humidity
- 20 per box

**N95 Particulate Mask**
- Easy-breathing design
- Classic 2 strap, 10 per box

**Airwave N95 Particulate Mask with SmartStrap**
- Exclusive easy-breathing wave design
- SmartStrap® - Hangable and adjustable
- Metal free, 10 per box

**Airwave N95 Particulate Mask**
- Dura-Mesh shell upholds in heat and humidity
- No metal nose band
- 20 per box

**N95 Particulate Mask**
- Dura-Mesh shell upholds in heat and humidity
- No metal nose band
- 20 per box

**Filter Type**
- **N – Class**: particulate respirators are approved for solid and liquid particulates, excluding oils.
- **R – Class**: is for both oil and non-oil solid and liquid particulates, with a maximum 8-hour or one shift use restriction when used for oil mist.
- **P – Class**: respirators are approved for both oil and non-oil particulates and have no time use restriction.

**Filter Efficiency Level**
- **95**: 95% minimum filter efficiency in removing particulates.
- **99**: 99% minimum filter efficiency in removing particulates.
- **100**: 99.97% minimum filter efficiency in removing particulates.
PERSONAL PROTECTION—RESPIRATORY

N95 Particulate Mask with Valve
- Exclusive Dura-Mesh shell resists collapsing in heat and humidity
- Exhale valve reduces hot air build-up
- 10 per box

R95 Plus Nuisance Organic Vapors Mask
- HandyStrap & Dura-Mesh shell
- Ventex valve lets hot air out faster
- 10 per box

PERSONAL PROTECTION—HANDS

Full-Fingered Trades Gloves
- Super dexterity and function
- Premium EVA pad dampens shock
- Abrasion resistant, textured PVC on palm & fingers
- Flex zones for added comfort

Leather Trades Gloves
- Combines goatskin, Kevlar® and TPR armor
- Split leather reinforced fingertips
- Knuckle pad
- PU foam padded palm

PVC Handler Gloves
- Textured PVC palm & fingertips
- Breathable 3 layer stretch spandex back
- Neoprene knuckle pad
- Ideal for wet or dry surfaces

Lightweight Trades Gloves with Touch Control
- Tough PVC palms & single layer spandex
- Breathable stretch spandex, neoprene knuckles
- Abrasion resistant, PVC on palm & fingers
- Pull tab for easy on/off

At-Heights Construction Gloves
- Comfort, durability and protection
- Ultra-durable double layer palm & fingertips
- EVA foam padding on upper palm
- Perforated neoprene knuckle pad and cuff

Cut Resistant Handler Gloves
- Lined with 100% Kevlar® for level 3 cut
- Textured PVC palm & fingertips
- Breathable 3 layer stretch spandex back
- Ideal for wet or dry surfaces
Nitrile Dipped Dorsal Impact Reducing Gloves
- Molded TPR armor for added protection
- Foam nitrile coated palm
- Lightweight, high dexterity

Maxiflex® Ultimate™ Gloves
- High-Vis seamless knit nylon/lycra
- Nitrile coated micro-foam grip on palm and fingers

Zormax™ Cut Protection Gloves
- Outstanding cut resistance, 360° breathability
- Gray micro foam nitrile coated palm
- EN cut level 3

G-Tek™ Touch Gloves
- Operate your touch screen phone
- Urethane coated palm & fingers
- Seamless kit polyester

MaxiDry® Concrete Finisher’s Favorite Gloves
- Ultra lightweight nitrile coating on super fine gauge seamless knit liner
- Great dexterity due to strategic coating placement

Class 5 Cut Protection Gloves
- Seamless knit glove with super-durable gripping sandy foam nitrile palm
- Nitrile-Dipped

G-Tek Maxiflex® Ultimate™ Gloves
- Ultra-light, knitwrist, Micro foam nitrile coated
- Controlled grip with micro cup finish
- Minimal palm thickness, thinner than most comparable gloves

MaxiChem® Chemical Resistant Gloves
- Ultra lightweight blended polymer, gauntlet cuff
- Great dexterity due to strategic coating placement

- Hook & loop for easy on/off
- Drawstring Waist
- Sizes S-3XL available

Back Support Hi–Visible
- 8” stretch bias with adjustable, detachable suspenders
- Sizes M-L-XL-2XL

ANSI Classes
ANSI 107-2010 - Provide practical instruction regarding both reflective material and garment design. These guidelines also define classes of garments as most appropriate, depending on the level of risk in the work environment:

ANSI CLASS 1 - For workers who are well separated from traffic and working in areas where vehicle and/or equipment speeds do not exceed 25 mph. This class includes those directing parking operations, retrieving shopping bags from parking areas, maintaining sidewalks, making deliveries from vehicles, and working in warehouses where motorized equipment is present.

ANSI CLASS 2 - For workers in situations where complex visual backgrounds may be present. This class includes roadway construction workers, utility workers, survey crews, crossing guards, tollgate personnel, airport baggage handlers, first responders and law enforcement personnel.

ANSI CLASS 3 - High visibility garments for workers in the highest-risk situations, who need to be visible through a full range of body motions from a minimum distance of 1280 feet. This class includes highway maintenance and construction crews, utility workers, tow truck operators, survey crews, flaggers and emergency response personnel.

ANSI CLASS E - Applies to retroreflective equipped pants or shorts, designed to be worn in combination with either Class 2 or Class 3 tops. When worn in this manner, the ensemble is rated as Performance Class 3.
PERSONAL PROTECTION– WORK WEAR

Class 2 T-Shirt
- Lightweight birdseye knit and wicking treatment
- One outside pocket
- Sizes S-5XL available

Class 2 Surveyors Vest
- ANSI- Compliant level 2 reflective
- Sizes S-3XL available
- Front zipper, two inner & two outer pockets

### Heat Stroke
- Confusion
- Fainting
- Excessive sweating or red, hot, dry skin
- Very high body temperature

### Heat Exhaustion
- Cool, Moist skin
- Heavy sweating
- Headache
- Nausea or vomiting
- Dizziness
- Light headiness
- Weakness
- Thirst
- Irritability
- Fast heart beat

### Heat Cramps
- Muscle spasms
- Pain
- Usually in abdomen, arms, or legs

### Heat Rash
- Clusters of red bumps on skin
- Often appears on neck, upper chest, folds of skin

### First Aid
- Call 911
  - While waiting for help:
    - Place worker in shady, cool area
    - Loosen clothing, remove outer clothing
    - Fan air on worker; cold packs in armpits
    - Wet worker with cool water; apply ice packs, cool compresses, or ice if available
    - Provide fluids (preferably water) as soon as possible
    - Stay with worker until help arrives

- Cool, Moist skin
- Heavy sweating
- Headache
- Nausea or vomiting
- Dizziness
- Light headiness
- Weakness
- Thirst
- Irritability
- Fast heart beat

- Have worker sit or lie down in a cool, shady area
- Give worker plenty of water or other cool beverage to drink
- Cool worker with cold compresses/ice packs
- Take to clinic or emergency room for medical evaluation or treatment if signs or symptoms worsen or do not improve within 60 minutes
- Do not return to work that day

- Muscle spasms
- Pain
- Usually in abdomen, arms, or legs

- Try to work in cooler, less humid environment when possible
- Keep the affected area dry

* Remember, if you are not a medical professional, use this information as a guide only to help workers in need.
PERSONAL PROTECTION– HEAT STRESS

High-Performance Dew Rag
• Fabric keeps moisture away, elastic band for secure fit

Evaporative Cooling Vest
• Lightweight, durable, washable stays hydrated up to 4 hours

Shax Canopy
• Light Weight
• 10’ x 10’

Terry Sweatband
• Fits most hard hats

Shax Umbrella
• Heavy duty commercial
• 84” diameter

ZOLL AED Plus Defibrillator

- The AED Plus is the only full-rescue AED, providing both CPR support and defibrillation.
- Indicates to rescuers whether a shock (defibrillation) or CPR is the appropriate therapy to initiate.
- Approximately 50% of SCA victims require defibrillation. All require CPR.
- Full-rescue AED that provides real-time auditory and visual feedback to help rescuers achieve the proper depth (2 inches) and rate of CPR chest compressions (100 per minute).

FALL PROTECTION– HARNESSES

TYPES OF HARNESSES

MULTI-PURPOSE HARNESS
This type typically includes extra attachment points which allow work in a variety of situations. The belt and pad provide additional back lumbar support, positioning rings and tool carrying options.

WORK POSITIONING HARNESS
These harnesses have positioning D-rings located on the hips for use with pole straps or work positioning lanyards, which allow hands-free operation. Harnesses of this kind may include integral waist belts.

LADDER CLIMBING HARNESS
Harnesses with a frontal attachment point, for connection to permanent ladder safety systems.

DESCENT CONTROL HARNESS
These harnesses typically have frontal attachment points for use with descent control devices.

CONFINED/RETRIEVAL HARNESS
One attachment point located on each shoulder strap facilitates upright retrieval from confined spaces.

“CHOOSING” THE RIGHT HARNESS MADE EASY!

ExoFit NEX™, ExoFit™ XP ExoFit™ & Delta™

FULL BODY HARNESS SIZING CHART

- Heights from 4’10” to 6’8”
- Weights from 80 to 420 lbs
EXOFIT™ harnesses have a reputation for maximum comfort, freedom of movement and ease-of-use, as well as launching innovations such as the spring-loaded, stand-up back D-ring, and the Revolver™ torso adjusters.

- Revolver™ Vertical Torso Adjusters
- Hybrid Comfort Padding

FALL PROTECTION – LIFELINES

Rope Grab Kit
- Includes rope grab, lanyard, lifeline, counterweight, tie-off adaptor & carrying bag

Large Eye Rope Grab
- Use on 5/8” nylon rope lifeline
- Auto/Manual

Sealed-Blok™ RSQ™ Dual Mode Built in Rescue Operation
- 2 modes of operation, fall arrest mode, automatic descent mode

Lad-Saf™ X2 Cable Sleeve
- Use with 3/8” and 5/16” galvanized & stainless steel
- Locks into place immediately

Rope Adjuster/Lanyard
- Use 5/8” polyester polypropylene rope lifeline
- Manual use

EZ-Line™ Retractable Horizontal Lifeline System
- Built in winch, pre tension & impact indicators
Cynch™ for Distribution Poles
- Pole size min 5.5”/17.5” max 16”/50”, weight 4.5 lbs.

Rebar Positioning Lanyard
- Swivel steel rebar hook with 2.5” gate opening, clevis-pin steel snap hooks & grade 80 chain

Chain Rebar Lanyard
- Assembly with snap hooks & aluminum rebar hook at center x 20.5”

Chain Rebar Assembly
- Swivel chain rebar assembly with snap hooks & flat steel rebar hook at center x 24”

Saflok™ 2-3/16” Carabiner
- Steel, self locking/closing 3,600 lb. gate

Saflok™ 11/16” Carabiner
- Steel, self locking/closing 3,600 lb. gate

Come check us out at www.arrowtools.com
**FALL PROTECTION – ADAPTORS**

**First™ 5/8” Rope Grab**
- 2” shock absorbing lanyard & 2 snap hook ends
- Bag included

**Lifeline-Nylon**
- 5/8” nylon rope with 2 snap hook ends

**50 Ft. Lifeline-Blend Rope**
- 5/8” nylon rope, carabiner at one end and tape at other

**Saffline™ Cable Lifeline**
- Durable all metal system
- 2 worker capacity
- Portable

**Cable Tie Off Adaptor**
- 1/4” coated galvanized cable
- 6 ft. with snap hook at one end & O-ring at the other

**Cable Tie Off Adaptor**
- 1/4” coated galvanized cable
- 6 ft. with two O-rings

**Suspended Cable Anchor**
- Temporary, reusable drop-through anchor for overhead attachment
- High strength 1/4” galvanized cable

**Hand Grip**
- 2” Capacity, One Hand Operation with plastic grips

**Web Anchor**
- Strap with large opening hook D-ring at other end x 1.5 ft.
**Web Scaffold Choker**
- Choker style attaches to 3” diameter anchorage
- 1” polyester strength x 17”

**Web Tie-Off Adaptor**
- Pass through design 1-3/4” polyester strength
- Available in 3 ft. and 6 ft.

**Web Tie-Off Adaptor**
- Web loop and D-ring pass thru

**Concrete Anchor Strap**
- Disposable 1-3/4” polyester construction x 3-1/2 ft.

**Two-Way Universal Standing Seam Clamp**
- All steel construction, reusable
- Reversible design allows seams up to 1” wide

**BMR Trolley Anchor**
- Combo use with shock absorbing lanyard or a SRL
- Safety locking toggles allows easy adjustment, eliminates risk
- Free moving rollers

**Deluxe Rotating SRD Anchor**
- Provides additional connection D-ring for attachment of alternate systems

**Concrete Anchor Point**
- “Ace” concrete anchor point
- Ideal for permanent use
- Fall resistant/positioning usage
- Easy to install and inexpensive

**Concrete Anchor Point**
- Anchor bracket with integral D-ring
- Universal bushing
- Large washer

Come check us out at www.arrowtools.com
TYPES OF ANCHORS

The choice of anchor depends on the type of work. Anchorages are defined by what they connect to (general/all purpose, steel, concrete, roof or specialty), whether they are fixed or mobile, and whether they are permanent or portable. They all must provide a secure point of attachment for a complete personal fall arrest system, and must be capable of supporting a load of 5,000 lbs. or meeting OSHA's criteria of a 2-to-1 safety factor.

**Toggle Anchor**
- Swiveling D-ring provides a compatible tie off point

**Concrete Wedge Anchor**
- Exclusive quick release button for fast removal

**Concrete D-Ring Anchor**
- Reusable for temporary or permanent applications

**Concrete D-Ring Anchor**
- Reusable

**Concrete Swivel Anchor**
- Correct installation indicator
- Rotates increasing mobility
- Temp/permanent applications
**FALL PROTECTION – ANCHORS**

**Fixed Beam Anchor**
- Fits up to 1-1/2” thick beam flange, 2-1/2” to 12” wide

**Glyder™ Sliding Beam Anchor**
- Dual beam grip adjustment fits 3-1/2” -14” wide flange up to 1-1/4” thickness

**Parapet Anchor**
- Temporary fall arrest anchorage
- No fasteners required
- Fits Parapet Walls 1/2” to 15” thick

**Portable Roof Anchor**
- Reusable on flat or sloped wood roofs

**Adjustable Skyhook**
- Fits from flat -12/12” roof pitch
- Easy attachment and movement
- 360° swivel D-ring
- Weatherproof

**Permanent Ridge-It Anchor**
- Easy to install, exposing 2 D-rings for attachment
- Permanent on wood roof top
- Water tight protection

**Portable Roof Anchor**
- Compact design, reusable on flat or sloped wood roofs

**EcoAnchor Roof Anchor**
- 4’ x 4’ water filled counter-weight anchor with duffle bag

ADVANCED HOIST SYSTEMS

These units are constructed of lightweight materials including high-strength aluminum. The davit pivots for ease-of-rescue and has adjustment for overhead clearance restrictions. The lower base adjusts to fit most standard entries.

Advanced 5 Piece Hoist System
- Davit arm base system is 11-1/2" to 27-1/2"
- Adjustable offset upper mast, 33" lightweight lower mast and 3-piece lightweight base.
- Includes: winch mounting bracket
- Weight: 100 lbs.

DBI8518000

Order winch and SRL separately

RSQ™ Dual – Mode
Built in Rescue Operation
- 2 modes of operation, fall arrest mode, automatic descent mode

DBI3400930

Rescue Ladder
- Available in 8ft. Sections
- Includes 3 carabiners for attachment

DBI8516294
Perimeter Limiter Leading Edge Anchor
- Large foam filled trailer tire won’t go flat and will provide easy movement
- Rotating 7.5 ft. mast and anchorage arm for added freedom of movement
- Pre-drilled holes for accessory rescue winches or jobsite boxes
- Additional weights and taller mast can be added for jobsite flexibility

Construction Safety Netting
- Fire retardant debris netting
- Polyethylene
- UV resistant

Functions as a guardrail system while blocking materials from falling

Construction Safety Netting
- Fire retardant 70 pro knit mm
- Polyethylene
- UV resistant

Skylight Protection System
- High strength polypropylene
- Ratchet made of galvanized steel

Freestanding, non penetrating anchor is ideal for concrete decking construction and provides overhead anchorages for up to 2 users

Come check us out at www.arrowtools.com
Wherever guardrail protection is required, the following standards shall be adhered to except that other types and arrangements of guardrail construction will be acceptable where the height, surface and end projection of the top rail complies with the standard specifications and the closure of the vertical area between the top rail and floor, platform, runway, or ramp provides protection at least equivalent to that afforded by a mid-rail.

(a) A standard guardrail shall consist of top rail, mid rail or equivalent protection, and posts, and shall have a vertical height within the range of 42 inches to 45 inches from the upper surface of the top rail to the floor, platform, runway, or ramp level. (Note: the permissible tolerance on height dimensions is one inch). The top rail shall be smooth-surfaced throughout the length of the railing. The mid rail shall be approximately halfway between the top rail and the floor, platform, runway, or ramp. The ends of the rails shall not overhang the terminal posts, except where such overhang does not constitute a projection hazard. (Title 24, Part 2, Section 2-1716(a)).

Note: Local building regulations may require 9-inch spacing of mid rails.

(b) All guardrails and other permissible types, including their connections and anchorage, shall be designed for a live load of 20 pounds per linear foot applied either horizontally or vertically downward at the top rail. Dimensional details of railing members of a few types of construction which comply with this strength requirement are given hereinafter in subsection (c).

Note: It is recognized that the minimum value of railing strength here specified is inadequate for safety under operating conditions where railings are liable to receive heavy stresses from crowds, trucking, handling materials, etc. For such conditions, additional strength shall be provided by use of heavier stock, closer spacing of posts, bracing, or otherwise.

Railing members shall be framed in such a position that they will afford the greatest support and protection, for example, top rails of structural steel angles shall have the outside face of vertical leg located on the side adjacent to the side of normal contact by the employee. (Title 24, Part 2, Section 2-1716(b).)

(c) The following are some acceptable guardrail specifications: other combinations will be accepted as long as equivalent strength and protection are maintained.

(1) In wooden construction, the posts to be of at least 2-inch by 4-inch nominal material spaced not to exceed 6 feet, the top rails to be smooth with corners rounded and not less than 2-inch by 4-inch nominal material. The posts may be spaced on 8-foot centers if the top rails consist of double 1-inch by 4-inch nominal boards, provided that 1 board is fastened in a flat position on top of the posts and the other is fastened in an edge-up position to the inside of the posts and the side of the top board. Single mid rails, where permitted, shall be not less than 2-inch by 4-inch nominal material and installed on the contact side of the guardrail.

(2) If constructed of standard metal pipe, the top rails and single mid rail, where permitted, to be 1 1/2-inch outside diameter or larger. The posts to be 1 1/2-inch outside diameter or larger, the spacing not to exceed 8 feet.

(3) Guardrails installed on or before May 26, 2011. If constructed of structural metal, the top rails to be angle iron of at least 2-inch by 2-inch by 1/4-inch angles or other metal shapes of equivalent bending strength; and the single mid rail, where permitted, to be iron or steel of at least 2-inch by 2-inch by 1/4-inch angles or other metal shapes of equivalent strength. The posts to be angle iron of at least 2-inch by 2-inch by 1/4-inch stock, the spacing not to exceed 8 feet.

(4) Guardrails installed after May 26, 2011. If constructed of structural metal, the top rails to be angle iron of at least 2-inch by 2-inch by 3/8-inch angles or other metal shapes of equivalent bending strength; and the single mid rail, where permitted, to be iron or steel of at least 2-inch by 2-inch by 3/8-inch angles or other metal shapes of equivalent strength. The posts to be angle iron of at least 2-inch by 2-inch by 3/8-inch stock, the spacing not to exceed 8 feet.

(d) Where toe boards are required, they shall be constructed of wood, concrete, metal, or other suitable material. Where constructed of metal grille, mesh shall not exceed 1-inch. The top of the toe board shall be not less than 3 1/2 inches above the platform, walkway, or other working level and the bottom clearance shall not exceed 1/4-inch.

Note: Where materials are piled, higher toe boards, or paneling from floor to intermediate rails or top rail shall be provided where necessary for safety. (Title 24, Part 2, Section 2-1753.)

Note: Authority cited: Section 142.3, Labor Code. Reference: Section 142.3, Labor Code; and Section 18943(c), Health and Safety Code.
FALL PROTECTION– GUARDRAIL SYSTEMS

Safety Boot® Guardrail System
- Design that allows toe boards to be inserted quick and easy
- Reusable

SurShield® Clamping Guardrail System
- No drilling
- Includes Safety Boot unit

VersiShield® Clamping Guardrail System
- Swivels into place on odd angles
- Locks securely onto the edge

Safety Boot® Tall Guardrail Brace
- Provides protection up to 65 inches
- Must use with Safety Boot

ParaShield™ Clamp Guardrail System
- For vertical wall structures ranging from 4” to 10” in width

StringerShield™ Guardrail System
- Easily adjustable and fits various size of stringers

FALL PROTECTION—LADDER ACCESSORIES

2-Rung Ladder Jack
- Easy to install and remove
- Pair with ladder jack to support planking up to 18”

3-Rung Ladder Jack
- Easy to install and remove
- Pair with ladder jack to support planking up to 18”

Corner Buddy Ladder Stabilizer
- Provides additional stability
- Supports on multiple dimensional surfaces
- Connects to nearly any ladder

Ladder Rung Step
- Reduces worker fatigue by providing extra support
- Provides more stability
- Easy, no tool required installation

Safe-T Ladder Extension
- Attaches over the top of the ladder to provide a safe and easy transition from the ladder to a second surface

Lock n Climb
- Provides additional stability and weight capacity
- Compatible with any ladder extension 16-40’
- Withstands loads excess of OSHA and ANSI A14.2 and A15.5

Ladder Hook
- Provides an ideal method of securing top of ladder to roof top
- Holds ladder firmly in place for better safety
- Fits single or extension ladders, adjusting to fit between top 2 rungs

Brass Shrouded Combination Lock

- Deadlock mechanism protects against prying
- No reset tool or key necessary

No. 5 Commercial Padlock

- Several key codes available
- Reinforced rivets resist prying
- Hour glass reinforced keyway resist drilling

No. 5 Padlock

- Keyed alike
- 2 pack

No. 5 Padlock

- Keyed alike
- 3 pack

Solid Body Padlock

- 5 pin tumbler
- 1” & 2” shackle heights
Compact Lockout Pouch
- Electrical

American Padlock
- No shackle, 2-1/2” solid steel

Stainless Steel Padlock
- Shielded shackle
- 2-3/4” round

Cut Resistant Chain
- Black nylon sleeve protects against damaging equipment

Steel Braided Cable
- Looped ends

Mini U-Lock
- 7 pin cylinder
- Shackle withstands 3 tons of pull force

Personal Lockout Kit
- Electrical

Adjusting Cable
- Rust resistant
- 6 ft.

Master Lock
- Shielded shackle
- 2-3/4” round

Stainless Steel Padlock
- 6 ft.

Mini U-Lock
- 6 ft.

Adjusting Cable
- 6 ft.

TESTING THE ATMOSPHERE
Never assume that the air inside any confined space will support human life until it has been tested. Always determine the oxygen level in the confined space before allowing personnel to enter. It may save a life or eliminate the chance of an explosion.

IMPORTANT THINGS TO REMEMBER
The chemistry of a gas or vapor determines its weight. Gases heavier than air will settle to the bottom area inside a confined work space. Gases lighter than air will be found around the top area inside a confined workspace. Because gases at any level can be dangerous, it is necessary to test all area (top, middle and bottom) of a confined work space with properly calibrated testing instruments to determine exactly what types of gases are present and their relative concentration levels. If testing reveals an atmosphere that is oxygen deficient/enriched, contains a gas or a mixture of gases classified as hazardous, or the presence of toxic gases or vapors, the confined work space must first be ventilated with proper type of air ventilation blower and then retested as necessary before workers are allowed to enter.

THE BOTTOM LINE:
Never trust your senses to determine if the atmosphere inside a confined work space is safe! You can not see or smell many toxic gases or vapors. You can not determine the oxygen level by sense alone. Use proper testing equipment. Follow the proper procedure. Retest as necessary.

Gasoline Nonhazardous Blower
- 4 HP Honda motor, with oil alert
- 8” inlet and outlet diameter
0.4 HP AC Electric Nonhazardous Blower
- 115 volt AC, 60 HZ, single phase motor
- Molded thermoplastic housing
- Swivel type caster wheel set

.33 HP AC Electric Nonhazardous Blower
- 115 volt AC, 60 HZ, single phase motor
- 8” inlet and outlet diameter
- Molded thermoplastic housing

1.0 HP AC Electric Nonhazardous Blower
- 115 volt AC, 60 HZ, single phase motor
- Molded thermoplastic housing
- Steel blower wheel

Nonhazardous Blower Accessories
- 8” nominal diameter
- Nylon ring and securing strap at each end
- Temperature range -20°F to 250°F

Nonhazardous Blower Accessories
- 12” nominal diameter
- Nylon ring and securing strap at each end
- Temperature range -20°F to 250°F
Straw Wattle
- 9” x 25’
- Made of recycled rice straw
- Contained in tubular black netting

Jute Mesh
- 4’ x 225’
- Loosely twisted construction
- Does not vary in thickness

Sandbags
- Available filled or empty
- Durable woven polypropylene

Gravel Snake Bags
- 11” x 96”
- High quality polymer material
- High UV rating allows multi-year life

Silt Fence
- 3’ x 100’
- Includes 11 stakes
Drain Guard
- 48” x 36” x 18”
- Holds up to .87 gallons of oil, 40 lbs. of sediment
- Removes hydrocarbons, dirt and sand

High Capacity Drain Guard
- 60’ x 60” x 24”
- Holds up to 1.9 gallons of oil, 300 lbs. of sediment
- Uses grating & retainer bars to secure in place

Curb Guard Plus
- 4” x 36”
- Units can be connected to form longer lengths
- Wedge shaped, heavy duty foam

Ultra Pipe Sock
- 60” long
- Oil absorption capacity 0.81 gallons

Dewatering Bags
- Retains both oil and sediment
- Accommodates up to 4” discharge hose

Reusable Dewatering Bags
- Bag with locking rods
- Large 3’ – 5’ removal access
- Galvanized steel locking rods

Come check us out at www.arrowtools.com
**Temporary Spill Berm**
- Standard 10 ft. sections can be cut to fit

**Square Temporary Drain Seal**
- Seals to any smooth surface

**Collapsible Wall Containment Berm**
- Rugged PVC sidewall assemblies for support
- Swivel the feet to lower or raise sidewalls

**Self Bailer**
- Filters hydrocarbons from storm water in outdoor containment products
- Simple installation

**Rapid Rise Containment Berm**
- Sidewalls stay down while loading and unloading
- Foam flotation ring will lift the sidewalls up to the level of the spill up to a 12” sidewall

**Ultimate Containment Berm**
- Living hinge design for no manual raise or lowering of the end walls
Containment Sumps
- Polyethylene construction will not rust or corrode
- One piece molded design with drain

Full Drum Top Funnel
- Funnel allows access to the 3/4” drum bung

Burp Free Funnel
- Built in vent prevents splashing or burping when pouring liquids

Overpacks
- High density polyethylene construction offers excellent chemical resistance

Utility Trays
- Available in six sizes for a variety of applications

Sidewinder Cable Protection System
- Flexible design, curves, corners, and s-curves

CHOOSING THE RIGHT APPLICATION

**Spilfyter® Universal Pads & Rolls**
- Heavy, medium, light duty pads
- Great wicking and performance
- Disguises grime, unsightly spills
- Dimple bond pattern increases physical strength

**Spilfyter® Oil Only Pads**
- Heavy duty, 16” x 18”
- Vertically perforated for customized fit
- Place under oil leaks and around machines

**Spilfyter® Universal Sock**
- 3” x 4’
- Shapeable to surround and absorb leaks around odd shaped machinery

---

**Spilhyder® Universal Pads & Rolls**
- Heavy and medium duty
- Eliminates fiber contamination
- Durable for high traffic areas

Camo pattern completely hides spills

**CAMOUFLAGE**
- SPILLDS-75 – Heavy 16” x 18” Pads
- SPILLDS-93 – 32” x 150’ Heavy Roll
- SPILLDS-94 – 16” x 150’ Heavy Roll

**GRAY**

**Yellow Column Protectors**

- Blow molded 100% high density polyethylene resistant to most chemicals
- Key lock to prevent slippage

**Hi-Vis Column Protectors**

Two halves attach with easy-to-install straps

**Mini Column Protectors**

Two halves attach with easy-to-install straps
ABC Dry Chemical Fire Extinguisher
- Multipurpose extinguisher
- 2.5, 5, 10, 20 lbs.

Halotron Fire Extinguisher
- 5 lbs.
- Clean non-conductive gaseous agent
- Ideal near electronic equipment
- Comes with vehicle bracket

Decorative Safe Smoker Cigarette Receptacle
- 5 gallon capacity
- Made of polyethylene with UV inhibitors
- Galvanized steel bucket

Safe Smoker Cigarette Receptacle
- 5 gallon capacity
- Made of polyethylene with UV inhibitors
- Galvanized steel bucket

60 Gal. Safety Cabinet
- Internal and external welded construction
- Three point latch system
- Self closing doors
- Two shelves

30 Gal. Standard Safety Cabinet
- Continuous piano hinge
- Self closing doors
- One shelf
- Key lock

45 Gal. Tower Safety Cabinet
- 2” raised leakproof seal
- Self closing doors
- Two shelves
- Ground connection
Patented Comfort Grip
Trigger Release

Spring Closing Lid with Neoprene Gasket
Vents at 5 psi Internal Pressure

Fixed Handle

Non-Sparking Flame Arrestor and Pour Spout

Baked on Powder Coat Finish

Double Interlock No-Weld Bottom Seam

Meet OSHA & NFPA Code 30 Requirements, FM, ULC Approved

Lead-Free Technology
Featuring Environmentally friendly hot dipped 24-Gauge Galvanized Steel

Optional F-15 HDPE Funnel Fits Unleashed Fuel Tanks

The Only Deep Drawn Seamless Can Made

Deep Drawn Construction Means No Top or Side Seam

Trilingual Label

**Metacaulk 1000 Intumescent Firestop Sealant**
- Water based
- Excellent freeze thaw
- Flexible set
- Paintable
- Safe and easy to use
- Highly intumescent
- VOC compliant

MET66309 – 5 GALLON  
MET66312 – 20.2 oz. SAUSAGE  
MET66302 – 10.3 oz. CARTRIDGE

**Metacaulk MC 150 + Firestop Sealant**
- Water based
- Excellent freeze thaw
- Flexible set
- Paintable
- Safe and easy to use
- Intumescent
- VOC compliant

MET66382 – 10.3 oz.  
MET66385 – 20.2 oz. SAUSAGE  
MET66389 – 5 GAL

**Metacaulk Putty Pad**
- 7” x 7” x 1/8”
- Adheres to all common building surfaces
- Single component putty system
- Intumescent properties
- No asbestos fillers
- Easy to install
- DOT classification

MET66335

**Metacaulk Putty Stick**
- 5” x 11” x 8”
- Hand moldable
- Will not dry out, reusable
- Intumescent properties
- No asbestos fillers
- Easy to install
- DOT classification

MET66345

**Metacaulk 350i Intumescent Firestop Sealant**
- Highly intumescent
- Water based
- Excellent freeze thaw
- Flexible set
- Paintable
- Safe and easy to use
- VOC compliant
- Protected against mold growth

MET66611 – 20.2 oz. SAUSAGE

**Metacaulk Fire Rated Mortar**
- 20 lbs.
- Water based
- Excellent freeze thaw
- Flexible set
- Paintable
- Safe and easy to use
- Intumescent
- VOC compliant

MET66331

- Highly intumescent
- Water based
- Excellent freeze thaw
- Flexible set
- Paintable
- Safe and easy to use
- VOC compliant

MET66611 – 20.2 oz. SAUSAGE
Metacaulk Composite Sheet
- 36” x 36”
- Easy install using common trade tools
- Lightweight easy to handle
- Intumesces
- Thermally conductive
- UL classified
- Re-enterable

Metacaulk Fire Stop Pillows
- 2 available sizes
- Easy install no tools required
- Forms very hard char when burned
- Highly intumescent
- Versatile

Metacaulk Fire Stop Cover Guard
- 3 available sizes
- Great for safe retrofit applications
- Reduces sound transmission
- Easy to install

Metacaulk Fire Stop Box Guard
- 3 available sizes
- Adheres to back of electrical box
- Dielectric breakdown voltage 22V/mil
- Non conductive
- Highly intumescent

Metacaulk Intumescent Pipe Collars
- 2 available sizes
- Easy installation
- No measurement of material required
- Tested for PVC,CPVC,ABS and PVC/ABS foam core, FRPP
- Highly intumescent

Kool Rod Backer Rod
- Closed cell, polyethylene, flexible
- Rope like foam joint backing material
- Easily compressible, lightweight
- Installs quickly, stays in place
- Sealants will not adhere to rod

Detectable Warning Panels
- ADAAG compliant
- Approved by DOT's
- 5 year manufactures warranty
- Extremely durable
- Easy to install

Cast in Place

Radius Cast in Place

Surface Mount

Wet Set Basics
Pour concrete, contractor establishes finished grade.
Place the polymer concrete panel on top and tap in place.
Final panel elevation needs to be verified.
Make sure proper slope is obtained as specified in the contract document.

Surface Mount Basics
Installation area needs to be dry.
Concrete should be cured for a min of 21 days.
Area and back of panel must be clean.
Apply uniform bead of adhesive to scratched rib areas, and to all four edges to properly seal panel perimeter.
Place panel at desired location and apply pressure.
Clean away excess adhesive.

Available Sizes
2’ X 2’  2’ X 3’  2’ X 4’
2’ X 5’  3’ X 4’  3’ X 5’

Available Colors

TRAFFIC SAFETY– BARRICADES

**A-Frame Barricade**
- Use as type I or type II barricade or a sign stand
- Angled 15° for greater stability
- Lightweight
- Manufactured from a specially formulated plastic compound

**A-Frame Plastic Barricade**
- Use as type I or type II barricade or a sign stand
- Strong one piece design
- Manufactured from a specially formulated plastic compound
- Lightweight

**Wood Panels Barricade**
- Legs are 45” manufactured using galvanized steel in 12 and 14 gauge thickness
- Hinge holes accommodate 1/2” warning light mounting bolts

**Traffic Cone**
- Polyguard cone is 100% fluorescent orange PVC
- Inside wall has special basket ball grip

**Ringtop Portable Delineator**
- Diamond series 8 lb. base
- Bolt hole for warning lights
- Available with 10 & 12 lb. base

**Slim Line Channelizer**
- Two piece stackable 42” cone and 10 lb. rubber base
- Bolt hole for warning lights

**Surface Mount Delineator**
- Perfect for temporary or permanent applications
- High impact resistant

**Universal Vertical Panel**
- Injection molded for durability
- Recessed design protects sheeting from wear & tear
- Accepts A & C warning lights
12” x 18” Waterproof Polyboard Signs

24” x 24” Water Resistant Polyboard Reflective Construction Signs

GENERAL – FLOOR PROTECTION

Builder Board Floor Protection
- Roll size 38” x 100’
- Water resistant
- Allows maximum breathability
- Easy to install
- 100% recyclable

Clean Mat Adhesives Sheets
- Size 24” x 36”
- Tacky surface to remove dirt from footwear
- Mat contains 30 tabbed sheets for easy removal

Water Shield Reinforced Kraft Paper
- Construction grade
- Protects floors, cabinets and counter tops
- Non staining

Carpet Shield Adhesives Film
- Protects during construction
- Does not move or shift
- Tear and puncture resistant

Pro Shield Felt Mat
- Size 36” x 100’
- Slip resistant, lightweight and flexible
- Reusable
- Highly absorbent

Trim Tape Multi Purpose
- Pliable for easy application
- Works on metal, aluminum, vinyl clad & glass surfaces
- Does not tear upon removal
- 6 mil

Shoe Covers
- One size fits most
- Elastic closure
- Cloth skid resistant bottom
- Protects floors

Terms and Conditions of Application for Credit

1. Applicant hereby certifies all above statements are true and correct and authorizes Arrow Tools to contact all credit references.

2. All invoices are to be paid within 30 days. All overdue invoices will be subject to a service charge of 1 1/2% per month, which the applicant agrees to pay.

3. Applicant will notify Arrow Tools of any changes in ownership of above company immediately.

4. Applicant agrees remittance shall not be delayed or withheld because of unsettled claims or other disputes, which shall be handled separately from the account for transportation and related charges.

5. Applicant agrees account will be placed on COD if invoices are not paid within Net 30 terms. Applicant also agrees to supply Arrow Tools with Prelim information within 5 days of request and Arrow Tools shall have lien rights on jobs in an attempt to collect on past due invoices.

6. In the event Arrow Tools deems it necessary to utilize the service of an outside collection agency or an attorney to collect on any outstanding debts, the applicant agrees to pay all collection cost, attorney fees and court costs.

7. The undersigned agrees to indemnify and hold harmless Arrow Tools from and against any and all demands, liabilities, costs, penalties, obligations, damages, and expenses or any nature arising due to products sold or supplied and further understands Arrow Tools is not responsible for the use or misuse of any materials, products, goods, tools and equipment sold.

Name: _______________________________ Signature: _______________________________

Personal Guarantee

In consideration for the extension of credit and the sale and/or rental of equipment, machinery tools and/or hardware to the forenamed firm, I/we individually and jointly agree guarantee payment of all obligations due and owing by said firm and individual to you. Any liability of the undersigned shall not be affected by any compromise settlement or any variation of terms of any sales or rental contract made by the purchaser. The undersigned waives notice of acceptance, notices of non-payment, and non-performance and notices of any other kind and nature, and waives the right to remove any action brought upon the guarantee from the court originally acquiring jurisdiction. Title and right of immediate possession of the above described property remains with the seller until full and complete payment of the amount has been made. Invoice payable upon presentation. Accounts more than 30 days past due bear interest at legal rate. Should it be necessary to take legal action to enforce any obligations herein, purchaser agrees to pay all attorney and court fees.
